

Syllabus

STA4321 and STA5325, Fall 2022

Introduction to / Foundations of Probability

Department of Statistics, University of Florida

Course information.

<i>Lectures.</i>	Monday, Wednesday, and Friday from 10:40 - 11:30 AM in TUR 2319		
<i>Instructor.</i>	Ekvall, Karl Oskar	<i>Teaching assist.</i>	Huang, Zhuochao
<i>office.</i>	103A Griffin–Floyd	<i>office.</i>	TBA
<i>email.</i>	k.ekvall@ufl.edu	<i>email.</i>	zhuochao.huang@ufl.edu
<i>office hours.</i>	Monday 13:30 - 14:30 AM (In office)	<i>office hours.</i>	TBA
	Friday 09:15 - 10:15 AM (Zoom)		TBA

Course objective. The sequence of courses STA 4321–4322 (rep. 5325–5328) provides a formal and systematic introduction to mathematical statistics for students who have passed three semesters of standard undergraduate level calculus. STA 4321 and STA 5325 introduces the background in probability that is necessary to understand the classical statistical theory introduced in STA 4322 and STA 5328.

Course topics. Major topics include the basic formal elements of probability, discrete and continuous random variables, multivariate distributions, distributions of functions of random variables, and fundamental limit theorems.

Prerequisites. MAC 2313 (or equivalent third semester calculus course). A well prepared student should have taken an introductory statistics course, such as STA 2023 or STA 3032.

Course webpage. Course materials (e.g., homework assignments and due dates) will be posted the course’s eLearning site, where grades will also be posted. Please check this site regularly for updates and announcements. Course documents and important information, including homework exercises, homework solutions, sample exams, and special announcements, will be posted there.

Textbook. Wackerly, Mendenhall, and Scheaffer, *Mathematical Statistics with Applications* (7th ed), Duxbury Press (Thomson Brooks/Cole Publishing), 2008.

- Exams will be based on material presented in lectures, which will approximately cover Chapters 1-7 of the textbook. The textbook is not required, but will be a very helpful resource for the suggested readings and many homework exercises will be from the textbook.

- For secondary readings, I also recommend the textbook *Introduction to Probability* by Blitzstein and Hwang, which can be downloaded here: [link].

Assessment. Course grades will be based on six homework assignments and three in-class examinations. Of the homework assignments, the average of the highest five assignments will account for 30% of the course grade. Of the in-class exams, your highest two exam scores will each count for 25% of course grade, and your lowest exam score will count for 20% of your course grade. **Because you are allowed to drop one homework score, late homework will not be accepted.**

Homework assignments will be submitted and graded electronically through the course eLearning site.

- *Tentative exam dates.*
 1. Wednesday, Sep 28
 2. Wednesday, Nov 2
 3. Wednesday, Dec 7
- *Tentative homework due dates (approximate lectures covered).*
 1. Wednesday, Sep 7 (Lectures 2 - 5)
 2. Wednesday, Sep 21 (Lectures 6 - 11)
 3. Wednesday, Oct 5 (Lectures 12 - 18)
 4. Wednesday, Oct 19 (Lectures 19 - 24)
 5. Wednesday, Nov 16 (Lectures 25 - 32)
 6. Wednesday, Nov 30 (Lectures 33 -)
- Any changes to the tentative dates will be announced in class or on the eLearning site.

Grading scales. Letter grades will be assigned based on the following cutoffs:

Grade	Percentile
A	100% - 93%
A-	93% - 90%
B+	90% - 87%
B	87% - 83%
B-	83% - 80%
⋮	⋮
D-	63% - 60%
F	60% -

The instructor may adjust cutoffs downward (i.e., lower the percentile needed to achieve a certain letter grade) when assigning final course grades.

Working with classmates: While students are encouraged to work through homework exercises with one another, it is required that students write up their solutions independently. A failure to do so would constitute a violation of the student honor code and will be treated as such: see <https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>.

Student honor code: The instructor will announce what will be allowed during examinations besides a writing utensil (e.g., one 8.5 x 11 sheet of paper with notes on both sides). See the homework section for expectations about homework assignments. Please refer to the UF student honor code (linked above) for more.

Missed exam. Missed exams will receive a grade of zero, except in the cases of emergency. If an exam will be missed for a non-emergency reason, the student must notify the instructor *at least two weeks prior* to the exam date and provide proper documentation. Refer to <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/> for specifics on course attendance policy and missed exam policy.

Incomplete policy. The grade of "Incomplete" can be assigned at the discretion of the instructor when, due to extraordinary circumstances, e.g., hospitalization, a student is prevented from completing the work of the course on time. In particular, an "Incomplete" will be given if the student presents evidence from a certified professional that the student is unable to complete the course. In addition, the student must have a passing grade at the time of the incomplete request in order to receive the "Incomplete". An "Incomplete" requires a written agreement between instructor and student found here <https://clas.ufl.edu/files/2019/02/CLASIncompleteGradeContract.pdf>.

Students with Disabilities. Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, www.dso.ufl.edu/drc/) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Online course evaluation process. Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Academic dishonesty. UF students are bound by The Honor Pledge which states, "We, the members of the University of Florida community, pledge to hold ourselves and our peers

to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code specifies a number of behaviors that are in violation of this code and the possible sanctions. The Conduct Code can be found here: <https://sccr.dso.ufl.edu/process/student-conduct-code/>. If you have any questions or concerns, please consult with the instructor or TAs in this class.

In class recording. Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student.

Health and wellness resources.

- U Matter, We Care: If you or someone you know is in distress, please contact umat-ter@ufl.edu, 352-392-1575, or visit U Matter, We Care website to refer or report a concern and a team member will reach out to the student in distress.
- Counseling and Wellness Center: Visit the Counseling and Wellness Center website or call 352-392-1575 for information on crisis services as well as non-crisis services.
- Student Health Care Center: Call 352-392-1161 for 24/7 information to help you find the care you need, or visit the Student Health Care Center website.

- University Police Department: Visit UF Police Department website or call 352-392-1111 (or 9-1-1 for emergencies).
- UF Health Shands Emergency Room / Trauma Center: For immediate medical care call 352-733-0111 or go to the emergency room at 1515 SW Archer Road, Gainesville, FL 32608; Visit the UF Health Emergency Room and Trauma Center website.

Academic resources.

- E-learning technical support: Contact the UF Computing Help Desk at 352-392-4357 or via e-mail at helpdesk@ufl.edu.
- Career Connections Center: Reitz Union Suite 1300, 352-392-1601. Career assistance and counseling services.
- Library Support: Various ways to receive assistance with respect to using the libraries or finding resources.
- Teaching Center: Broward Hall, 352-392-2010 or to make an appointment 352- 392-6420. General study skills and tutoring.
- Writing Studio: 2215 Turlington Hall, 352-846-1138. Help brainstorming, formatting, and writing papers.
- Student Complaints On-Campus: Visit the Student Honor Code and Student Conduct Code webpage for more information.
- On-Line Students Complaints: View the Distance Learning Student Complaint Process.
