SYLLABUS - STA 4321 / STA 5325
INTRODUCTION TO PROBABILITY (4321)
FUNDAMENTALS OF PROBABILITY (5325)

Term: Summer A, 2018

Professor: Dr. David Groggel   Graduate Assistant: Xia Wei

Office Hours: Griffm-Floyd Hall   Room   101B   dgroggel@ufl.edu
                Monday - Friday 8:15-9:15 a.m.
                Other times by appointment

                Griffm-Floyd Hall Room   Room   101 C   _____
                Monday and Wednesday 11:00 a.m. - 1:00 p.m.
                Tuesday and Thursday 11:00 a.m. - 2:00 p.m.

Text: Mathematical Statistics with Applications, 7th Edition (Chapters 2 - 6)
                       By Wackerly, Mendenhall, & Scheaffer

Homework: Homework problems will be assigned but not collected. Homework is designed to help the
               student understand the material and prepare for the exams. Anything that is covered in a
               homework problem could show up on an exam so it is very important that students understand
               how to do the homework problems.

Exams: There will be 4 exams. Each exam will be given in class and will be worth 100 points.
               Make-up exams will be given only when prior permission is obtained to miss the exam given
               in class.

Grading: The final grade will be based on the total number of points earned out of 400.
               The following grading scale will be used.

368 -400	A	320-327	B-
360-367	A-	312-319	C +
352 - 359	B+	280-311	C
328 - 351	B	240 -279	D
		Below 240	E
